

STOCKS DISPLAY REACTION AGAIN

Heaviness Attributed to Low Record Established for Demand Sterling.

By Broadan Wall.
NEW YORK, Aug. 31.—The stock market displayed a reactionary tendency late Monday afternoon following early strength. Heaviness of the market was attributed to the low record established for demand sterling, financial interests declaring that it would serve to increase liquidation of American securities by the foreigners.
Prices were highest in the first hour of trading when gains of from 1 to 2 points were recorded in the most active issues. Aggressive buying of steel common forced the price to 77, while purchases of the rails resulted in gains of from 1 to 2 points. New York Central, Union Pacific and Reading being the favorites. At the end of the first hour quotations were around the highest. Very little change occurred during the remainder of the forenoon, but all the standard issues were supplied during the afternoon, the pressure in Steel resulting in a net loss for the day of nearly a point. Speculation in the "war brides" is steadily, but gradually becoming less turbulent owing to the insistence by the banks that brokers desiring lines on this class of collateral put up large margins or pay higher interest rates than paid when standard rails and industrials are given as collateral. One broker said Monday that the banks were insisting on margins ranging from 10 to 30 points, according to the advance that has taken place in the collateral offered. Brokers with small capital, but with customers desiring to speculate in the "war brides" have been forced to ask for large margins and when not forthcoming have discouraged the customers prospective by arraying the good points of the rails, which can be readily used as collateral for loans and on much smaller margin than is necessary when the "war brides" are held as security.
Oil shares were strong, California Petroleum, Texas company and Mexican Petroleum showing substantial advances. With the exception of the latter, the gains were well maintained.
Commission houses were again advising their customers to purchase the high grade rails, declaring that the railroads have started to move the munitions of war for which large contracts were placed several weeks ago, and that their earnings should soon reflect this expansion in traffic. To this is added the prospect of a large tonnage from the bumper crops with the growing belief shown by the interstate commerce commission that the railroads are deserving of better pay for their services.

AUTO RACER MAKES 72 MILES IN 77 MINUTES
Harry McGee Beats Vandalia Train From Indianapolis to Terre Haute in New Record.

TERRE HAUTE, Ind., Aug. 31.—Harry O. McGee, racing against a fast Vandalia passenger train from Indianapolis to Terre Haute, yesterday drove an automobile 72 miles in 77 minutes.
The train, which left Indianapolis at the same time as the automobile, arrived in Terre Haute on schedule time, 12 minutes later. A carrier pigeon, loosed when the race started, arrived late in the afternoon.
McGee's sensational drive was witnessed by thousands who lined the national road and packed Wyabash av. for three miles at the end of the course. The time is a new record for an automobile on the highway.

Rough and Ready Suit For Kiddie

By LaRaconteuse.

Wool jersey has been featured in various ways for grown-ups in suits, golf coats, sport coats, etc., and now we find it developed in a smart rough and ready suit for the wee kiddie. Indeed, this young miss wears a circular skirt strikingly similar to her elders and a middie blouse with a "cuff"

bottom, long sleeves and a round collar. Bindings of military braid lend a smart finish and the front lacing gives a "grown-up" effect. A suit of this type, a saucy felt hat and high button boots and the wee kiddie is appropriately and warmly clad for cool days.

CARRIER PIGEON FLIES 2,200 MILES IN 5 DAYS

LOS ANGELES, Calif., Aug. 31.—"Ben Bolt" is the champion carrier pigeon of the world. Monday the sturdy flyer reached home after a flight of approximately 2,200 miles from Norwalk, O., the greatest distance ever covered by a trained bird. At just 31 minutes and 10 seconds after noon Monday, "Ben Bolt" swept down from a great altitude and fluttered into his pen in the rear of the home of his owner, George H. Skolfield, 4670 S. Gramercy place. He had made the flight in a little more than five days and showed no ill effects of the long flight.
The bird was liberated from the roof of a piano factory at Norwalk by C. A. Whitney, at 5 o'clock in the morning of last Wednesday. The exact official time for the distance was 5 days, 9 hours, 31 minutes, 10 seconds.
The best previous flights on record were made by "Ben Bolt." One of the flights was from La Junta, Colo., and the other from a point in Oklahoma to Los Angeles.

NEW LOW LEVELS ON WHEAT CROP

Price of Canadian Grain Continues Below U. S. and Lower Quotations Expected.

By Joseph F. Pritchard.
CHICAGO, Aug. 31.—New low levels on the crop were reported in the wheat market Monday with net declines of 2@2 1-8c. Resting spots were around the bottom prices and sentiment at the close was more bearish than when the price was 10c or 15c higher. The market was in an oversold condition at the opening and in order to even up their contracts, shorts bought and there were advances of 3-4@1c early, and these prices seemed to be to the liking of those with wheat to sell, with a result of declines from the high prices of the morning of 3@2 1-8c.
There is a big shortage in all futures and the buying by shorts was on a large scale.
The price of Canadian wheat is still considerable below ours, and another new low price level is certain, unless something unforeseen transpires to change sentiment. Cash sales were 100,000 bushels, of which 200,000 bushels were to Montreal. The seaboard reported a lot of wheat sold there, but this was mainly Manitoba grain. There were rumors current today relative to the removal of duty from the wheat raised in Canada, but this was unconfirmed at the close. Minneapolis reported country offerings heavy, and cash premiums 5@10c lower. Millers bought December wheat there in a big way. A further increase in receipts is looked for in both great wheat belts.
Corn closed irregular and unsettled. September showing a loss of 3-8c while December was unchanged, and May a fraction higher. The frost west of the river this morning, Iowa being most affected, brought in a lot of buying orders and consequent early hardening in values. There was free selling on the advance and this caused a sharp loss in prices. Cash sales were 120,000 bushels.
Oats were 1-8c higher to 1-4@2-8c lower. There was a heavy increase in receipts at all primary points, an increase in the visible supply and the inspection here was 985 cars compared with 238 cars a year ago.
Pronounced weakness in provisions was caused by scattered liquidation in ribs and pork, while lard held steady under buying by packers. Support was lacking most of the day. Packers also sold January deliveries as hedges.

ITALIANS REACH TURKEY
Several Regiments Said to Have Effected a Landing.

ATHENS, Aug. 31.—Several transports carrying Italian troops have reached the Turkish coast, according to a dispatch from Mitylene, and several regiments have effected a landing. The message does not state at what point the Italians are landing, but it is believed to be on Gallipoli peninsula or near Smyrna.
If necessary, the nut trees of the world could supply nourishment to its entire population.
